The site proposed is no doubt the one we discussed for a market. We should be glad to take Govt's orders for this proposal, namely a market being built upon this site. Sir,

I have the honor to submit herewith for orders of Government copies of resolutions of the Municipal City Improvement Committee subject No 7 dated 26th March 1919 and of the City Municipal Council subject No 6 dated 31st May 1919, regarding the grant of a site for the construction of a building for the use of the Malleswaram Reading Room and Library The residents of the Malleswaram Extension have long been urging the necessity for the free grant of a suitable site for constructing a building for their Reading Room and Library Sometime back a site was allotted for the purpose, but it was resumed and handed over to Educational authorities for a play ground The site now selected for the purpose is half an acre in extent to the South of the Park ground between the VII and VIII Cross Roads and is well suited for a Reading Room and Library A sketch showing the site is submitted for perusal

2 I request that early sanction may be kindly accorded for the grant of the site free of cost for the purpose of the Malleswaram Reading Room and Library

The Honorrry Secretrry,
The Malleswerrm Association,
BANGALORE.

To,

B. Rameswamaiya Esq., B.A., B.L.,
Secretrry to the Govt. of H.H. The Maharaja
of Mysore, Revenue Department,
BANGALORE.

Sir,

I am directed by the Malleswerrm Association to submit the following few lines for the favourable consideration of Government

2. In the year 1909, a plot of ground lying between the 100-feet road & 6th cross-road to the west of the Margosa Avenue road in Malleswerrm and measuring about an acre & half, was granted by Government to the Malleswerrm Association, in their Order No.272/Ml.501-C&-2 dated 8th July 1909, for the purpose of putting up a building for the Reading Room and Library attached to it. The Association accepted the grant on the conditions laid down by Government, and on the strength of that Order, it appealed to the public for aid towards the cost of the building resolved to be erected on the site. A sum of Rs.1,500/- has been raised and some more are likely to be subscribed when the construction is actually begun. The Government too has been approached for a special grant, and the plan & estimate have been prepared to suit the site granted

3. When the Municipality was approached for the grant of the necessary license to erect the building, they made the grant of it dependent on the grant of sites to certain other institutions and rendered it necessary to hold in abeyance the question of issuing a license to the Association. It was then pointed out that the Association has, by virtue of the Govern-

ment Order of 8th July 1909, acquired a right in the site in question, and that the case of other institutions which had applied for sites long after the present site was granted to the Association was, therefore, stood on a different footing altogether and it cannot now stand in the way of a license being granted on a site already granted to it. The Municipality thereupon stated that the site granted to the Association had been resumed and given to the Education Department and that it was proposed to grant in lieu of it a portion of the Park Ground between the 7th & 8th cross roads, and called upon me to furnish a sketch noting the area of land required for the Association It is then the Association learnt for the first time that their site had been resumed They would certainly have not objected to an exchange when their land was required for a public purpose in which they, as residents of the extension, were as much interested as any body else But they feel that they were neither informed nor consulted when the question of granting the land to the Education Department was considered While bringing these to the notice of the Municipality, it was urged that an area equal to what was granted by Government may be given in exchange to enable the Association to have sufficient open space for tennis courts etc Since the Park Ground between the 7th & 8th cross roads measures only about an acre and smaller than our original site by nearly half an acre, we begged for the grant of the full extent of the Park ground so that we might put up the building either on the northern or southern side of it and utilise the other portion for purposes of recreation which is one of the main objects of the Association. This arrangement will also conduce to the convenience of the surrounding residents

4 The Association now learn that the grant of only half an acre in the Park Ground in exchange to a site measuring three times that extent has been recommended to Government, thus allowing the remaining small bit to be utilised for other purposes to the disadvantage of both the Association and

15

the public.

5. Through the courtesy of the Municipality, the Association has been using this Park Ground as their play-ground for the last nearly a decade. The Association has its tennis court, laid (as also a Badminton Court by the juveniles) and these have taken almost all the extent of the Park Ground leaving just sufficient space for building. It is now 2 years since the Association applied for the license and with the loss of time, it has lost more than 200 rupees by the death of some of the subscribers to the building-fund. It will therefore be hard if the Association is denied its legitimate ambition and allowed only a much smaller area of land in exchange to a larger one which has been since resumed without its knowledge. Under these circumstances, the Association respectfully pray that the entire extent of the Park Ground lying between the 7th and 8th cross roads in the Malleswaram Extension be granted to it, in lieu of the site granted by Government, for the construction of a building for the Reading Room and Branch Library.

6. A rough sketch of the Park Ground and the site granted to the Association by Government is enclosed for reference.

I beg to remain,

Sir,

Your most obedient servant,

Honorary Secretary.
